

# NORTH WINGFIELD PRIMARY & NURSERY ACADEMY™

Friday 22<sup>nd</sup> October 2021

A huge well done to Miss Gudgin's children who took part in a range of sporting activities at the English Institute of Sport on Wednesday. We work with Qualitas who are supporting us in taking part in a wide range of activities. Children will have the opportunity to get involved at different points across the year.

## Citizen Science Project

We are excited to have been selected to take part in a 2 week air pollution monitoring activity in and around the school grounds.

We will be provided with air pollution monitoring devices (we will be able to can keep them after the 2 week period is completed), which will transfer information to Plume Labs who will then analyse the information gathered and then provide us with feedback.

The Citizen Science Project is a national venture with the aim of providing children with feedback about the level of pollution around their school and looking at ways of reducing pollution for a healthier lifestyle. We will share more information after half term.

This week we have enjoyed a range of activities during our arts week. All children across school have taken part in developing key skills to create artwork around the focus of the environment. I will be sharing images on Twitter and on Class Dojo.

## Poppy Appeal

Thank you to those of you have bought poppy accessories. We will continue selling the items after half term until they have all gone.

All monies raised will be given to the Royal British Legion.

Children will be taking part in remembrance activities after half term.

Our KS2 children took part in scooter awareness training this week. Each child had a scooter and safety helmet; they were taught safety skills by two Qualitas coaches. All children did amazingly well.
