Designated Safeguarding Lead (s):

Rachael Peacock – Headteacher

Diane Parmley - Assistant Head KS1/EYFS

Karen Denovan – Nurture and Wellbeing Manager

Named Governor with lead responsibility: Anita Ashley

An online safety policy provides educational settings with a framework to develop their online safety ethos and enables leaders and managers to detail strategic approaches and considerations, with regards to the safer use of technology.

The online safety policy should be recognised as a safeguarding policy, not a technical or computing policy and falls within the role and responsibilities the Designated Safeguarding Lead (DSL). There is no requirement for educational settings to have a separate online safety policy if online safety issues are appropriately addressed within other policies; this decision will be down to leaders and managers. If online safety is embedded within existing documents, settings should ensure that their community is aware of how and where to locate safety information, especially regarding responding to and reporting specific online safety concerns.

This policy should support a schools/settings acceptable use policy, social media policy and handling complaints made by parents on line using social media.

We encourage all educational settings to ensure that their online safety policy is individualised for their own specific context, to ensure that it is fit for purpose. It will not be appropriate for educational settings to adopt this template in its entirety; some statements will be more relevant to some settings than others.

This policy template requires leaders, managers and DSLs to adapt the content to include specific local information such as their own named points of contact, as well as their specific procedures and expectations. These decisions and details will vary from setting to setting, so this template should be used as a starting framework.

Disclaimer

The Education People make every effort to ensure that the information in this document is accurate and up-to-date. If errors are brought to our attention, we will correct them as soon as practicable.

This policy will be reviewed at least annually. It will also be revised following any concerns and/or updates to national and local guidance or procedure
